7.5 kg Wash / 4 kg Dry Washer Dryer Combo with IonGuard™

**Wash & Wear™ Program** - Got an hour until that important meeting or a promising first date but nothing clean to wear? That's all the time you need to wash and dry 1 kg of laundry with the Wash & Wear® Program. Now you can have a full outfit ready to wear in an hour.

**Refresh Program** -When clothes and other items are stored in the cupboard for a few months they develop a damp or musty smell. Refresh Program powered by IonGuard® technology removes unwanted odours from your clothes. Fresh ions and steam circulate the drum and refresh clothes without the need for a full wash. Refresh your clothes in just 30 minutes.

**Pet Hair Removal Function** - No doubt pet owners love their furry friends but that doesn't mean they like going around with pet hair on their clothes. Now you can put away the scrubbing brush and let the Pet Hair Removal function do its thing with its prewash and special extra-rinse cycles. Fill your life with pets, not your clothes with their hair.

**Anti-Allergy+ Wash&Dry™** - Thanks to custom drum movements, sensitive temperature control and additional rinse and spin cycles, you can get Premium hygienic cleaning results for all your laundry at any temperature (20°C - 90°C).

\*Approved by Allergy UK Approved by Allergy UK for common house allergen removal at 60°C
