BDP83HW

8 kg Sensor Controlled Hybrid Heat Pump Tumble Dryer

RapiDry™ - Beko RapiDry™ gives you perfect flexibility drying your clothes. A hybrid type tumble dryer which merges conventional heater* and heat pump technology. This lets you choose between drying quickly and drying energy efficiently.

EcoGentle™ - EcoGentle heat pump technology means you can dry without draining the colours - or your bank account. Drying at a lower temperature (60°C with EcoGentle™ heat pump instead of 110°C with an AV condenser) it is gentler on your clothes.

Auto AntiCreasing - Perfect for those days when you can't unload your laundry right away, our automatic anti-creasing function rotates the drum periodically for up to 2 hours after a cycle has finished, separating your laundry to minimise creases.
